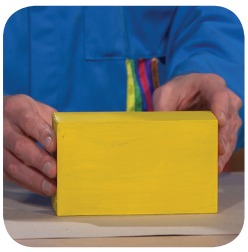
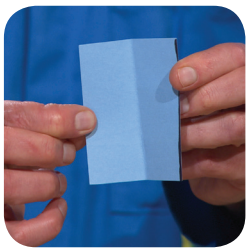
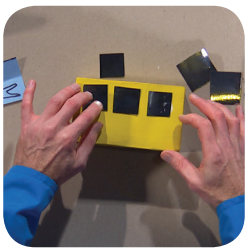
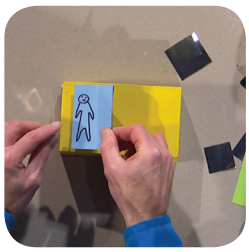
Craft Steps

Follow the below steps to make your Bus. Or you can work along with us on the Craft Video!

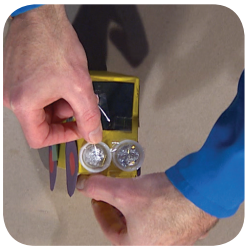


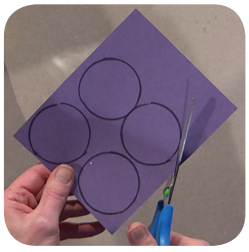


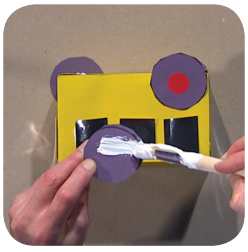


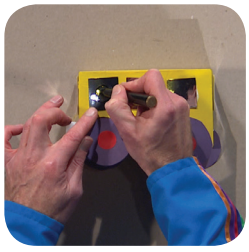


1. Start by painting your bus and set aside to dry.
2. To make a door for your bus cut a rectangle out of coloured card and fold it in half. If you like you can draw a person on one side.
3. To make some windows and a windscreen, cut out some squares and 1 rectangle from shiny card or foil. Use some glue to glue the windows to the side and the windscreen to the front.
4. Glue on the door to one side leaving one half to open and close.
5. To make some headlights scrunch some foil pieces into a bottle cap.









6. Use some tape or glue to attach the headlights to the front, under the windscreen.
7. Cut out four wheels from coloured card.
8. Glue two wheels onto each side. You can put a circle sticker in the middle of each wheel or cut a smaller circle for each wheel out of some card.
9. Draw some people in the windows of the bus and a driver onto the windscreen.
10. Now you are all ready to go for a bus ride!
